Customer Problem Statement

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	An IT procurement officer handling employee laptop requests	place orders for standard laptops quickly and consistently	each request has to be reviewed, approved and ordered by hand	the process depends on emails, spreadsheets and repeated follow-ups	overloaded and worried about delays and errors
PS-2	An employee requesting a new standard laptop	get my device approved and delivered without a long wait	I cannot see the status of my request or when it will be fulfilled	approvals and orders are not automated or tracked in one workflow	frustrated and unable to start work on time
