

Project Design Phase-II

Solution Requirements (Functional & Non-functional)

Date	30 September 2026
Team ID	6ab7efd38c7c66e706728f94
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	4 Marks

Functional Requirements

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Laptop Request Submission	- Request through Service Catalog form - Selection of pre-approved standard laptop model - Request through Employee Self-Service portal
FR-2	Eligibility Validation	- Verification of requester role and department - Check of laptop refresh cycle - Rejection with reason for ineligible requests
FR-3	Approval Automation	- Auto-approval for standard requests within policy - Manager approval for exceptions - Approval through email
FR-4	Inventory and Procurement	- Stock availability check - Automatic purchase order to vendor when stock is low - Delivery and receipt confirmation
FR-5	Notification and Tracking	- Status updates by email - Request tracking on the portal - Asset record creation after delivery

Non-functional Requirements

NFR No.	Non-Functional Requirement	Description
NFR-1	Usability	Simple catalog form with a clear list of standard laptop options that requesters can complete in a few steps.

NFR No.	Non-Functional Requirement	Description
NFR-2	Security	Role-based access for requesters, approvers and procurement staff, with audit logs of every approval and order.
NFR-3	Reliability	Failed flow steps are retried and logged so that no request is lost or ordered twice.
NFR-4	Performance	Eligibility check and auto-approval complete within seconds of request submission.
NFR-5	Availability	The ordering process is available whenever the ServiceNow instance is available, with no manual downtime.
NFR-6	Scalability	The flow handles a growing number of laptop requests and can be extended to other standard hardware items.
